Sir:

Please amend the above-identified application as follows:

In The Claims

Please replace claims 1 and 7 as shown below. A marked up version of the amended claims is attached to this Amendment.

1. (AMENDED) A method for high-speed, 3D imaging of optically-invisible radiation, the method comprising:

- A detecting optically-invisible radiation within an environment to obtain signals;
- B processing the signals to obtain stereoscopic data; and
- C displaying the stereoscopic data directly to a user's eyes in the form of optically-visible radiation images superimposed on a view of the environment so that the user can obtain a stereoscopic 3D view of the radiation by utilizing natural human stereo imaging processes.
